John uses a lemon and a dollar bill in one of his magic tricks, which sets the stage for a useful gift that can help prevent carpal tunnel syndrome as well as reminding people to work and live safely every day.

One of the secrets of effective safety meetings is to make them memorable. When you can make the message last more than the length of the meeting you begin to see results. Days, weeks, and months after one of John's presentations, people remember the fun they had. Every time they think of the meeting, they are reminded of the safety messages they heard. This effect can be enhanced by giving each person in attendance a lemon stress relief ball. It connects with the dollar in the lemon trick performed during each of John's presentations. John also explains how to use it to prevent injuries. A master of motivation he even points out that using it will improve your golf swing, which gives some audience members an added incentive to use it daily.

John's "Safety Day by Day" Lemon Stress Reliever Balls are a great employee gift to reinforce the message of safety and help reduce injuries long after John has left your meeting. When purchased for each employee, John will add a segment to his presentation that will teach his audience how to:

- * Properly use this great tool;
- * Reinforce the importance and benefits of using the ball on a daily basis;
- * Have a lasting reminder of working safely at work and at home; and
- * Have fun using it! (It even sits flat on your desk or toolbox!)

This **\$4.00** per person investment is another great way to help people work safely and continually remind them of the message and fun time they had at your meeting. As an added bonus, the words www.drebinger.com have been placed on the Lemon Ball as a great resource tool to direct everyone to new articles, training resources, and new ideas to motivate people.

John's Magic Kit

Safety Meeting Idea Kit

Make Your Meetings Magic!

How many times have you wanted to have something up your sleeve to make your next meeting memorable? Well we have just the thing . . . A magic kit put together by John Drebinger. Not sure you can learn them? John has selected each of these tricks to be impressive but very easy to learn. To make it even easier the kit includes an instructional DVD, which is over an hour in length. John performs each trick, so you can see what it looks like to the audience and then he explains how to do it while showing you the secrets and techniques for success.

Learn how to:

- Make three different length ropes magically become all the same;
- Pour sugar into your hand and have it vanish and then reappear;
- Vanish a small silk scarf and make it reappear;
- Vanish a cigarette into someone's shirt without burning the shirt;
- Cause a small red sponge ball to vanish and change into a square sponge and a black sponge ball;
- Cut and restore a rope two different ways;
- Have your thumbs tied together and escape;
- Change four nickels into four dimes;
- Predict the card someone will cut to in a deck;
- Four special card effects;
- Pass a long needle all the way through a balloon without it popping;
- Have someone randomly select a page from a book and you predict the word at the top of that page.

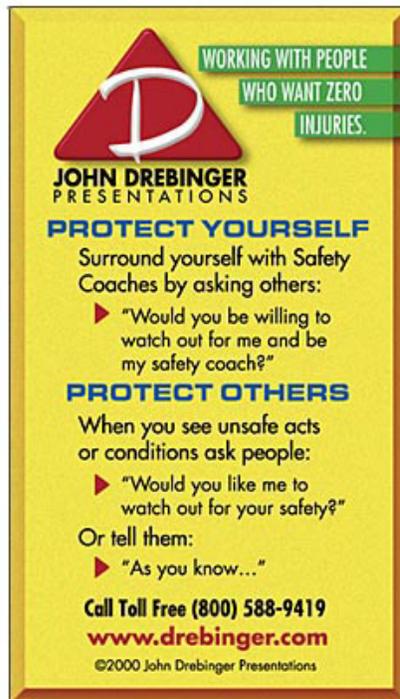

These tricks may be used one at a time and you can entertain at over sixteen meetings or if you want to put on a great magic show, you can entertain for about one half hour without repeating a trick.

If you are looking for a magic kit for someone who likes magic this is a great kit. These are the same tricks John entertained people with for years as a professional magician yet they are easy to learn. **Price: \$97.00**

Great gift ideas for door prizes too!

MASTERING SAFETY COMMUNICATION

Communication Skills for a Safe, Productive and Profitable Workplace

Mastering Safety Communication - Skills for a Safe, Productive and Profitable Workplace.

Most professionals like to have on their bookshelves how-to or hands-on books that they can use effectively in their day-to-day work. This book is one of those - but it is also backed up by the philosophy behind the recommendations. Thus, in this sense, it is more than a how-to book.

The book is based on the author's 18+ years experience as an effective trainer, teacher, and professional speaker to audiences of both employees and managers. Scattered throughout the book are appropriate quotes by people from whom Drebinger has learned many ideas. One quote, perhaps more than any other, illustrates the book's theme: "The outcomes you hold yourself accountable for are the ones you will achieve."

Drebinger advocates keeping a journal and writing down ideas as they arise. He says, "Writing a journal not only creates a record of your life and ideas, (it) becomes a doorway to new ideas, decisions, and pathways in the future." Several blank pages with the heading "What Ideas Can I Use to Improve the Safety Behavior of Myself and Those With Whom I Work?" are included near the end of the book.

The book has 12 short, hard-hitting chapters that give the reader the tools needed to develop an effective, individual communication style. A section entitled, "Questions to Enhance Your Reading", prefaces each chapter. Near the book's end, the author provides a "Collection of Empowering Quotes" as well as a recommended reading list. While aimed at safety professionals, this book is excellent for anyone who has the opportunity to communicate with, teach, and train people.
